February 7, 2012

TO: The Honorable Mayor, Members of the City Council, and the Citizens of Stephenville (the "City")

Submitted herewith is a copy of the Comprehensive Annual Financial Report (CAFR) for the fiscal year ended September 30, 2011. Responsibility for both the accuracy of the data and the completeness and fairness of presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

The Governmental Accounting Standards Board (GASB) requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of management's discussion and analysis (MD&A). This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the independent auditors' report.

#### THE REPORTING ENTITY

The City is a political subdivision and municipal corporation of the State, duly organized and existing under the laws of the State and the City's home rule Charter. The City was incorporated in 1889 and chartered a home-rule city under Texas law in 1961. The City occupies approximately 11.79 square miles and serves a population of about 17,480. The City is empowered by state statute to levy a tax on both real and business personal property located within its boundaries. The City also has the power by state statute to extend its corporate city limits by annexation, which is done periodically when deemed appropriate by the City Council.

The City operates under the mayor-council form of government. Policy-making and legislative authority are vested in a governing council consisting of the mayor and eight (8) Council members. The City Council is responsible for, among other things, passing ordinances, adopting the budget, appointing committees, and hiring the City Administrator. The City Administrator is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City, and appointing heads of various departments. The Mayor and City Council members serve two (2) year terms. All elected officials are elected at large. The basic financial statements of the City include all governmental activities, organizations and functions for which the City is financially accountable as defined by the Government Accounting Standards Board (GASB). Based on these criteria no other governmental organizations are included in this report.

#### SERVICES PROVIDED

The City provides a full range of services, including public safety (police, fire, and emergency medical), maintenance of streets and infrastructure, sanitation services, maintenance of the treated water distribution system and both sanitary and storm sewer collection and transmission systems, recreational activities and cultural events, landfill operations, airport facility maintenance as well as general administrative services.

#### ACCOUNTING SYSTEM AND BUDGETARY CONTROL

The City's accounting records for general governmental operations are maintained on the modified accrual basis, with the revenues being recorded when available and measurable and expenditures being recorded when the services or goods are received and the liabilities incurred. Accounting records for the City's utilities are maintained on the accrual basis.

In developing and maintaining the City's accounting system, consideration is given to the adequacy of the internal control structure. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding: (1) the safeguarding of assets against loss from unauthorized use or disposition; and (2) the reliability of financial records for preparing financial statements and maintaining accountability of assets. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

All internal control evaluations occur within the above framework. We believe that the City's internal controls adequately safeguard assets and provide reasonable assurance of proper recording of financial transactions.

The annual budget serves as the foundation of the City's financial planning and control. The City Council formally adopts the budget and legally appropriates available monies for activities of the General Fund, Enterprise Funds, Special Revenue Funds, the Debt Service Fund and Capital Improvements.

No later than August 1<sup>st</sup>, the City Administrator submits to the City Council a proposed budget which provides a complete plan for the fiscal year commencing October 1. The budget includes proposed expenditures and the means of financing them. The proposed budget is made available for public inspection and a public hearing is held to allow for citizen comment. After the public hearing, the Council may make changes to any item in the budget, except those fixed by law. No later than September 23, the budget is legally enacted via an ordinance which sets the limit on expenditures during the fiscal year. Additional expenditures may be authorized in the case of grave public necessity to meet unusual and unforeseen conditions which could not have reasonably been foreseen at the time the budget was adopted.

The level of budgetary control (that is, the level at which expenditures cannot legally exceed the appropriated amount) is at the departmental level; however, expenditures are monitored monthly at the department level to insure financial accountability by department directors. Management control of budgets is further maintained at the line item level within the department. The City also maintains an encumbrance accounting system to further accomplish budgetary control. Under the City's financial policies, encumbered amounts in the General Fund at year-end lapse. Encumbrances are generally re-appropriated as a part of the following year's budget. As demonstrated by the statements and schedules included in the financial section of this report, the City continues to meet its responsibility for sound financial management.

#### **ECONOMY AND BUSINESS CLIMATE**

The City currently enjoys a fairly stable and diversified economic environment, bolstered by the strength of both the Cross Timbers area and the State of Texas. Local manufacturing includes coated abrasives, oilfield related products, cream cheese, fiber gratings and fasteners, metal processing of electrical products, trailer customizing, and forging pipe unions. Tarleton State University provides further economic stability as the largest employer. Agriculture is Stephenville's leading industry with dairy, horse and cattle ranching, and agricultural crop production as the major economic contributors. Erath County is the state's leading milk producer. Stephenville continues to act as a retail and medical hub of the area. The local unemployment rate of 6.5% continues to compare favorably with state and national levels. Property values, sales tax receipts and building activity reflect the area's positive economic climate.

The City's ability to respond to on-going economic challenges will require careful long-range planning. The City has responded to the economy by fiscal conservatism and implementing operating budget efficiencies that have resulted in its maintaining healthy equity balances in its General Fund and Water/Wastewater Funds.

Users of this document are encouraged to read the City's Fiscal Year 2011-2012 Budget. The document details the City's long-term goals and financial policies, describes program accomplishments and initiatives, and outlines the City's capital improvement program. Also available for reference is the City of Stephenville's Comprehensive Plan which was adopted in 2006 and maps out the City's future strategies.

#### LONG-TERM FINANCIAL PLANNING

The City issued \$4.0 million in Certificates of Obligation in October 2011 for the purpose of constructing a new Fire Station No. 2, and for major Street reconstruction projects. Construction is expected to begin on the Fire Station in July 2012 and to be completed by July 2013. The Fire Station is estimated to cost approximately \$3.5 million. The City has designated \$2.5 million towards the Fire Station the other \$1 million will be coming from our reserves. The other \$1.5 million of the issue is designated to fund Street reconstruction projects.

#### ECONOMIC PROSPECT FOR THE FUTURE

During 2011, the City participated in an Economic Development Program with Tejas Tubular to extend Caporal Drive by approximately 1,500 feet. By extending the drive it enabled Tejas Tubular to construct a new ERW mill on their site. The cost to the City was approximately \$329 thousand and is expected to create approximately 10 to 20 new jobs for Stephenville as well as increasing the overall tax base.

The City also participated in a tax abatement program with FMC Technologies Fluid Control Division to expand their facilities. The tax abatement helped to spur \$12.5 million of facility improvements and \$13.7 of capital machinery and equipment for the facility expansion. This expansion also is expected to create approximately 80 new jobs when completed in the Spring of 2012.

#### INDEPENDENT AUDIT

The City's financial statements have been audited by Pattillo, Brown and Hill LLP, Independent Certified Public Accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended September 30, 2011, are free of material misstatements. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unqualified opinion that the City's financial statements for the fiscal year ended September 30, 2011, are fairly presented in conformity with GAAP. The independent auditors' report is presented as the first component of the financial section of this report.

#### **AWARDS**

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement in Financial Reporting to the City of Stephenville for its Comprehensive Annual Financial Report for the fiscal year ended September 30, 2010.

The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports. This award was the 26<sup>th</sup> consecutive year that the City of Stephenville has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

#### **ACKNOWLEDGEMENTS**

The preparation of this report on a timely basis could not be accomplished without the efficient and dedicated services of the entire staff of the City. We would like to express our appreciation to all staff members who assisted and contributed to its preparation. We would also like to thank the Mayor and City Council members for their interest and support in planning and conducting the financial operations of the City in a responsible and progressive manner.

Respectfully Submitted,

Mark A. Kaiser City Administrator Walter G. Wood

Director of Finance & Administration

#### INDEPENDENT AUDITORS' REPORT

To the Honorable Mayor and Members of City Council City of Stephenville, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of City of Stephenville, Texas, as of and for the year ended September 30, 2011, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Stephenville's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Stephenville, Texas, as of September 30, 2011, and the respective changes in financial position, and cash flows, where applicable, thereof, and the budgetary comparison for the General Fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

As described in the notes to the financial statements, the City adopted the provisions of GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, in 2011.

In accordance with *Government Auditing Standards*, we have also issued our report dated January 20, 2012, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3 through 11 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's financial statements as a whole. The introductory section, combining and individual nonmajor fund financial statements and schedules, and statistical section are presented for purposes of additional analysis and are not a required part of the financial statements. The combining and individual nonmajor fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

January 20, 2012

Patillo, Brown & Hill, L.L.P.

# MANAGEMENT'S DISCUSSION AND ANALYSIS

#### **Management's Discussion and Analysis**

This section of the City of Stephenville's (City) annual financial report presents our discussion of the City's financial performance during the fiscal year ended September 30, 2011. Please read it in conjunction with the transmittal letter, which can be found preceding this narrative, and with the City's financial statements, which follow this section.

#### FINANCIAL HIGHLIGHTS

- The assets of the City exceed its liabilities as of September 30, 2011, by \$57,985,258 (net assets). Of this amount, \$13,705,352 (unrestricted net assets) may be used to meet the City's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.
- The City's total net assets increased by \$1,883,623. The majority of this increase is attributable to excess revenue over expenses in Water and Wastewater.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$8,458,533, a decrease of \$322,909 over the prior year. The decrease in combined ending fund balances is attributable to use of surplus funds for capital projects. Approximately 95% of this total amount, \$8,015,503 is available for spending at the City's discretion (assigned and unassigned fund balance).
- As of September 30, 2011, unassigned fund balance for the General Fund was \$3,779,268 or 35 percent of total general fund expenditures.
- The City's total bond debt decreased by \$2,088,000 (8%) during the current fiscal year as a result of principal retirement.

#### OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City of Stephenville's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide Financial Statements. The government-wide financial statements are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City of Stephenville is improving or deteriorating. The government-wide financial statements can be found on pages 12-13 of this report.

The Statement of Activities presents information showing how the City's net assets changed during the most recent fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused compensation absences). Both the Statement of Net Assets and the Statement of Activities are prepared utilizing the accrual basis of accounting as opposed to the modified accrual basis.

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their cost through user fees and charges (business-type activities).

The governmental activities of the City include general government, public safety, streets, library, cemetery, culture and recreation, and community development. The business-type activities of the City include water and wastewater, storm water drainage, solid waste, and airport operations.

#### **Reporting the City's Most Significant Funds**

**Fund Financial Statements.** The fund financial statements provide detailed information about the most significant funds, not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes. Some funds are required by state laws or bond covenants. The Council establishes other funds to control and manage money for particular purposes or as evidence of meeting legal responsibilities for using certain taxes, grants and other money. The City has two types of funds: governmental funds and proprietary funds.

Governmental Funds. The majority of the City's basic services are reported in governmental funds, which focus on how money flows into and out of those funds and the available balances at year-end. These funds are reported using an accounting method identified as the modified accrual basis of accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the City's general government operations and the basic services it provides. Governmental fund information helps the reader determine whether there has been an increase of decrease in financial resources that can be spent in the near future to finance the City's programs. By comparing information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements, readers may better understand the long-term impact of the government's near-term financing decisions. The relationship or differences between governmental activities (reported in the Statement of Net Assets and the Statement of Activities) and governmental funds are detailed in a reconciliation following the fund financial statements. The basic governmental fund financial statements can be found on pages 14-16 of this report.

A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with the annual appropriated budget. Data for the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining fund statements and schedules elsewhere in this report.

**Proprietary Funds.** The City charges customers for the services it provides through service delivery agreements to outside customers or through customer service agreements within the City. These services are generally reported in proprietary funds. Proprietary funds are reported in the same manner that all activities are reported in the Statement of Net Assets and the Statement of Activities. In fact, the City's enterprise funds (a component of proprietary funds) are identical to the business-type activities that are reported in the government-wide statements, but with additional detail and information, such as cash flows. Individual proprietary fund data is found on pages 20 – 23 of this report.

The City maintains one type of proprietary fund-Enterprise Funds. The City uses the Enterprise Funds to account for water, wastewater, storm water drainage, solid waste, and airport operations. All activities associated with providing such services are accounted for in these funds, including administration, operation, maintenance, debt service, capital improvements, billing and collection. The City's intent is that costs of providing the services to the general public on a continuing basis is financed through user charges in a manner similar to a private enterprise.

**Notes to the Financial Statements.** The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and funds financial statements. The notes to the financial statements can be found on pages 24 - 47 of this report.

**Other Information.** In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information in the form of combining fund statements and schedules for nonmajor funds. These are presented immediately following the notes to the financial statements beginning on page 48 of this report.

#### THE CITY AS A WHOLE

#### **GOVERNMENT WIDE FINANCIAL ANALYSIS**

The City's combined net assets were \$57,985,258 as of September 30, 2011, an increase of 3.4% compared to fiscal year ending 2010. As noted earlier, net assets may serve over time as a useful indicator of a government's financial position. Analyzing the net assets and net expenses of governmental and business-type activities separately, the business-type activities net assets are \$32,801,826, an increase of \$1,846,301 over prior year. The governmental activities net assets are \$25,183,432, an increase of \$37,322 over prior year.

By far, the largest portion of the City's net assets (74 percent) reflects its investments in capital assets (e.g., land, buildings, machinery, equipment and infrastructure) less any outstanding debt used to acquire those assets. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the City's net assets, \$1,135,424, represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net assets, \$13,705,352, may be used to meet the City's ongoing obligations to citizens and creditors.

As of September 30, 2011, the City is able to report positive balances in all three categories of net assets, both for the City as a whole, as well as for its separate governmental and business-type activities. The same held true for the prior fiscal year. Overall, the City had an increase in net assets of \$1,883,623.

**Governmental Activities.** The City's total revenues for governmental activities decreased from the previous year by \$903,135 or 7%. General revenues increased \$290,944 or 3% when compared to the prior year. The ad valorem tax revenue increased \$142,925 or 4%. This increase was due to an increase in the tax rate of .0165 to .4600 per \$100 assessed valuation. The effect of the tax rate on ad valorem tax revenue was partially offset by a decrease in net assessed taxable value from \$896 million in the prior fiscal year to \$885 million in the current year.

The following table provides a summary of the City's operations for the year ended September 30, 2011, with comparative totals for the year ended September 30, 2010. Governmental activities increased the City's net assets by \$37,322 or 2 percent of the total growth in net assets.

**Business-type Activities.** Revenues of the City's business-type activities were approximately \$7.6 million for the fiscal year ended September 30, 2011. Revenues increased approximately \$972,463 or 15% compared to the prior fiscal year.

Expenses for the City's business-type activities decreased approximately \$164,594 or 3%. Net Assets from business-type activities increased by \$1,846,301 or 6 percent, from \$30,955,525 to \$32,801,826, accounting for the other 98 percent of the total growth in net assets.

#### FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds. The focus of the City's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$8,458,533, a decrease of \$332,909, from the prior year. The decrease in combined fund balance is primarily attributable to use of surplus funds for capital projects. Approximately 95% of this total amount, \$8,015,503, constitutes assigned and unassigned fund balance, which is available for spending at the City's discretion. The remainder of fund balance is restricted to indicate that it is not available for new spending because it is required to be used for certain purposes. Refer to page 14 of this report for a more detailed presentation of governmental fund balances.

In the General Fund, the City budgeted for a decrease in the fund balance on a budget basis of \$916,760 but due to actual revenues being more than budgeted and actual expenditures being less than budgeted, the fund balance increased by \$342,804 during the current fiscal year. Sales tax collections increased by 8% from the previous year but the City collected 9% more than budgeted. Other actual revenues collected were also higher than budgeted: 1) current year and delinquent property taxes were collected at higher rates than projected to generate \$146,327; 2) licenses and permit fees were \$153,969 more than budgeted; and 3) service charges were also higher than budgeted by \$103,746. Expenditures were lower than budgeted mainly because capital outlays were lower.

The Capital Projects Fund has a fund balance of \$486,235, a decrease of 58 percent, all of which is restricted for specific construction projects.

The Debt Service Fund has a fund balance of \$106,908, a decrease of 15 percent, all of which is reserved for the repayment of debt.

The Special Revenue Funds have a fund balance of \$317,286, an increase of 6 percent, all of which is restricted for the special programs defined by revenue source.

**Proprietary Funds.** The City's proprietary funds provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the City's Enterprise Funds at the end of the year amounted to \$5,548,656. The increase in net assets was \$1,846,301. Other factors concerning the finances of these funds have already been addressed in the discussion of the City's business-type activities.

#### **General Fund Budgetary Highlights**

During the year there was a \$481,449 increase in appropriations between the original budget and final amended budget. Following are the main components of the increase:

• \$16,000 additional appropriation in the Park department for a replacement pickup truck.

- \$20,000 additional appropriation in the Street department for a replacement pickup truck.
- \$50,000 additional appropriation for street reconstruction.
- \$63,000 additional appropriation for energy efficient window replacement at City Hall.
- \$90,000 additional appropriation in the Police department for (3) patrol vehicles.

Even with these increases in appropriations, the excess in revenues during the year was sufficient to fund these increases without reducing the budgeted General Fund fund balance.

Actual expenditures were \$10,735,586 compared to the final budgeted expenditures of \$11,127,490. The \$392,354 variance was primarily attributable to capital projects not initiated during the year, close monitoring of expenditures by departments and performing better than anticipated. Actual revenues on a budgetary basis were \$11,179,128 compared to the final budget of \$10,359,179. The \$819,949 variance was due primarily to increases in taxes (sales and property), ambulance revenue and licenses/permit fees.

Capital Assets. The City's investment in capital assets for its governmental and business-type activities as of September 30, 2011, amounts to \$66,289,187 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, vehicles and equipment, park facilities and infrastructure.

Major capital asset events occurring during the current fiscal year included the following:

- Bosque River Trail \$16,264;
- Storm Water Drainage improvements: \$33,306;
- Surface Water Supply Project \$207,375;
- Sewer Line Replacement \$375,273;
- Major Thoroughfare Renovation Project \$603,334;
- Approximately \$61,809 of water lines was donated by developers;
- Approximately \$102,049 of sewer lines was donated by developers; and
- Streets and sidewalks worth approximately \$190,037 were donated by developers.

Additional information on the City's capital assets can be found on page 36 – 37 of this report.

#### **DEBT ADMINISTRATION**

At the end of the current fiscal year, the City had total bonded debt of \$22,946,865. Of this amount, \$2,185,000 represents bonded debt backed by the full faith and credit of the City, \$12,900,000 represents utility revenue bonds secured by water and sewer revenues and \$146,865 represents revenue bonds secured by airport revenues, and \$7,715,000 secured by storm water drainage revenues.

| General Obligation Bonds | A3                | A+       |

Additional information on the City's long term-debt can be found in pages 39 – 42 this report.

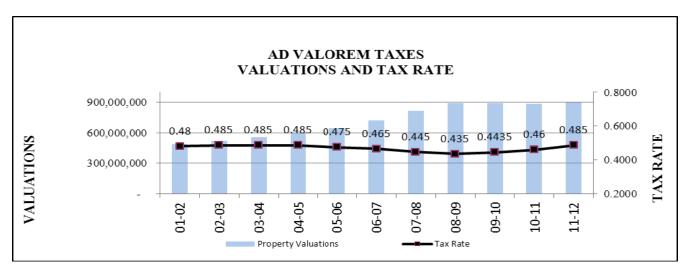

#### ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The unemployment rate for the City of Stephenville as of the fiscal year-end was 6.50% compared to the prior year rate of 7.0% which is an indication that the local economy is starting to stabilize. This rate compares favorably with state and national unemployment levels.

Sales tax collections for 2010-2011 were up by 8% compared to the previous year and collections still exceeded budget by \$366,313. The economy seems to be on a rebound but we are still taking a conservative approach in determining estimated collections for the upcoming budget year.

The above factors were considered in preparing the City of Stephenville's budget for the 2011-12 fiscal year. Accordingly, next years' budget incorporates a \$.0250 increase in the property tax rate to \$.4850 per \$100 valuation. Certified taxable property value for 2011 is \$895 million. This is a 1.47% increase over the last year's values, or \$13 million. The largest portion of the increase, \$7 million, is new property coming onto the tax rolls and the remainder of the increase due to the reevaluation of existing property.

The City uses funds from the General Fund to supplement capital projects during the year as needs arise and where favorable unit pricing is received on such projects. Additionally, the City's Fiscal Management Practices call for the designation of any surplus of revenues over expenses at fiscal year-end as a means of providing resources for major capital projects. There are ample funds for transfers during 2012, should the City Council so desire, and still retain the minimum fund balance provisions established by the Fiscal Management Practices.

#### REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional information should be addressed to Walter G. Wood, Director of Finance, 298 West Washington, Stephenville, Texas 76401-4257 or call (254) 918-1211.

# RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES

#### FOR THE YEAR ENDED SEPTEMBER 30, 2011

Amounts reported for governmental activities in the Statement of Activities (page 13) are different because:

| Net change in fund balances - total governmental funds (page 15)   | \$( | 332,909) |
|--|-----|----------|
| Governmental funds report capital outlays as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as |     |          |
| depreciation expense.  | (   | 250,867) |
| The net effect of various miscellaneous transactions involving capital assets (i.e., sales, tradeins, and donations) is to increase net assets.  |     | 174,880  |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.   |     | 12,219   |
| The repayment of the principal of long-term debt consumes the current financial resources of governmental funds. However, this has no effect on net assets.                                |     | 420,000  |
| Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.        |     | 13,999   |
| Change in net assets of governmental activities (page 13)  | \$  | 37,322   |

#### NOTES TO FINANCIAL STATEMENTS

#### **SEPTEMBER 30, 2011**

#### I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Stephenville, Texas, was incorporated August 6, 1989, and operates as a home rule City. The City operates under a mayor-council form of government and provides the following services as authorized by its charter, general government, public safety (police, fire and EMS), streets, community development (planning and zoning, licensing, permitting and inspection), water and wastewater system, culture and recreation, airport and sanitary landfill.

### A. Reporting Entity

The accompanying financial statements comply with the provisions of the GASB Statements No. 14 and 39, "The Financial Reporting Entity," in that the financial statements include all organizations, activities, functions and component units for which the City (the "primary government") is financially accountable. Financial accountability is defined as the appointment of a voting majority of a legally separate organization's governing body and either (1) the City's ability to impose its will over the organization, or (2) the potential that the organization will provide a financial benefit to or impose a financial burden on the City. There are no component units which satisfy requirements for blending within the City's financial statements or for discrete presentation.

#### **B.** Government-wide Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenue, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenue* includes 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as *general revenue*.

#### **B. Government-wide Fund Financial Statements** (Continued)

Separate financial statements are provided for governmental funds and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

#### C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources* measurement focus and the accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the *current financial resources* measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Property taxes, franchise taxes, sales taxes, charges for services, fines and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

Governmental Funds are those through which most governmental functions of the City are financed. The acquisition, use, and balances of the City's expendable financial resources and the related liabilities (except those accounted for in the proprietary fund type) are accounted for through governmental funds. The measurement focus is upon determination of changes in financial position, rather than upon net income determination.

# C. <u>Measurement Focus</u>, Basis of Accounting and Financial Statement Presentation (Continued)

The City reports the following major governmental funds:

The <u>General Fund</u> – is the general operating fund of the City. It is used to account for all financial resources except those required to be accounted for in another fund.

The City reports the following major proprietary funds:

The <u>Water and Wastewater Fund</u> – is used to account for the activities necessary for the provisions of water and wastewater services.

The <u>Storm Water Drainage Fund</u> – is used to account for the activities necessary for the provisions of storm water drainage services.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board. Governments also have the *option* of following subsequent private-sector guidance for their business-type activities and Enterprise Funds, subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and wastewater function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Amounts reported as *program revenues* include: 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as *general revenues* rather than as program revenue. Likewise, general revenue includes all taxes.

# C. <u>Measurement Focus</u>, Basis of Accounting and Financial Statement Presentation (Continued)

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenue and expenses not meeting this definition are reported as nonoperating revenue and expenses.

#### D. Assets, Liabilities and Net Assets or Equity

#### **Cash and Cash Equivalents**

For purpose of presenting the proprietary fund cash flow statement, cash and cash equivalents include cash demand and time deposits and investments with a maturity date within three months of the date acquired by the City.

#### **Investments**

State statutes authorize the City to invest in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States; (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than "A" or its equivalent; (5) certificates of deposit by state and national banks domiciled in this state that are (a) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (b) secured by obligations that are described by (1) - (4); or, (6) fully collateralized direct repurchase agreements having a defined termination date, secured by obligations described by (1) pledged with third-party selected or approved by the City, and placed through a primary government securities dealer.

Investments maturing within one year of date of purchase are stated at cost or amortized cost. All other investments are stated at fair value, which is based on quoted market prices.

#### **Short-term Interfund Receivables/Payables**

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" or "due to other funds" on the balance sheet. Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

#### **D.** Assets, Liabilities and Net Assets or Equity (Continued)

#### **Inventories**

All inventories are valued at cost (first-in, first-out method). Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

#### **Restricted Assets**

Certain bond proceeds, as well as certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

#### **Capital Assets**

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, sidewalks and similar items) are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$1,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

Property, plant and equipment is depreciated using the straight-line method over the following estimated useful lives:

| Assets                            | Years    |
|-----------------------------------|----------|
|                                   |          |
| Airport improvements              | 40       |
| Buildings                         | 20 to 40 |
| Waterworks and sanitation systems | 33 1/3   |
| Infrastructure                    | 20       |
| Machinery and equipment           | 7 to 10  |

#### **Compensated Absences**

The City permits employees to accumulate earned but unused vacation pay benefits. Certain employees previously covered by civil service policies also have carried forward unused sick leave benefits. No liability is reported for unpaid accumulated sick leave for the remaining employees. Vacation pay is accrued when incurred in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. A liability for these amounts is reported in governmental funds only if they have matured (for example, as a result of employee resignations and retirements).

#### **D.** Assets, Liabilities and Net Assets or Equity (Continued)

### **Long-term Obligations**

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the straight-line method, which approximates the effect interest method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as issuance costs during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds received, are reported as expenditures.

#### **Fund Balance Classification**

The governmental fund financial statements present fund balances based on classifications that comprise a hierarchy that is based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in the respective governmental funds can be spent. The classifications used in the governmental fund financial statements are as follows:

- Nonspendable: This classification includes amounts that cannot be spent because they are either (a) not in spendable form or (b) are legally or contractually required to be maintained intact. Nonspendable items are not expected to be converted to cash or are not expected to be converted to cash within the next year.
- Restricted: This classification includes amounts for which constraints have been placed on the use of the resources either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.
- Committed: This classification includes amounts that can be used only for specific purposes pursuant to constraints imposed by resolution of the City Council, the City's highest level of decision making authority. These amounts cannot be used for any other purpose unless the Council removes or changes the specified use by taking the same type of action that was employed when the funds were initially committed. This classification also includes contractual obligations to the extent that existing resources have been specifically committed for use in satisfying those contractual requirements.

#### **D.** Assets, Liabilities and Net Assets or Equity (Continued)

#### **Fund Balance Classification** (Continued)

- Assigned: This classification includes amounts that are constrained by the City's
  intent to be used for a specific purpose but are neither restricted nor committed. This
  intent can be expressed by the City Council.
- Unassigned: This classification includes the residual fund balance for the General Fund. The unassigned classification also includes negative residual fund balance of any other governmental fund that cannot be eliminated by offsetting of assigned fund balance amounts.

When an expenditure is incurred for purposes for which both restricted and unrestricted fund balance is available, the City considers restricted funds to have been spent first. When an expenditure is incurred for which committed, assigned, or unassigned fund balances are available, the City considers amounts to have been spent first out of committed funds, then assigned funds, and finally unassigned funds.

#### **Net Assets**

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

#### **Estimates**

The preparation of financial statements, in conformity with generally accepted accounting principles, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual amounts could differ from those estimates.

#### II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

# <u>Explanation of Certain Differences Between the Governmental Fund Balance Sheet and the Government-wide Statement of Net Assets</u>

The governmental fund balance sheet includes a reconciliation between *fund balance* – *total governmental funds* and *net assets* – *governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains, "Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds." The details of this \$(2,463,357) difference are as follows:

| General obligations                                  | \$(         | 2,185,000) |
|--|-------------|------------|
| Accrued interest payable                             | (           | 10,698)    |
| Compensated absences                                 | (           | 225,929)   |
| Deferred charges                                     |             | 17,500     |
| Retainage payable                                    | <u>(</u>    | 59,230)    |
| Net adjustment to reduce <i>fund balance - total</i> |             |            |
| governmental funds to arrive at net assets -         |             |            |
| governmental activities                              | \$ <u>(</u> | 2,463,357) |

# Explanation of Certain Differences Between the Governmental Fund Statement of Revenue, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenue, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances* – *total governmental fund* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$(250,867) difference are as follows:

| Capital outlay                                   | \$ 941,602           |
|--|----------------------|
| Depreciation expense                             | ( 1,192,469)         |
| Net adjustment to increase net changes in fund   |                      |
| balances - total governmental funds to arrive at |                      |
| changes in net assets of governmental activities | \$ <u>( 250,867)</u> |

Another element of that reconciliation states, "Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds." The details of this \$12.219 difference are as follows:

| Property taxes  | \$( | 27,917) |
|---|-----|---------|
| Ambulance charges for services  |     | 3,080   |
| Municipal court fines   |     | 37,056  |
| Net adjustment to decrease <i>net changes in fund balances</i> - total governmental funds to arrive at changes in net |     |         |
| assets of governmental activities   | \$  | 12,219  |
| (continued)   |     |         |

# II. RECONCILIATION OF GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS (Continued)

# Explanation of Certain Differences Between the Governmental Fund Statement of Revenue, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities (Continued)

Another element of that reconciliation states that, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$13,999 difference are as follows:

| Accrued interest  | \$ | 2,808  |
|---|----|--------|
| Amortization of deferred charges                          | (  | 2,500) |
| Compensated absences                                      |    | 13,691 |
| Net adjustment to increase net changes in fund balances - |    |        |
| total governmental funds to arrive at changes in net      |    |        |
| assets of governmental activities                         | \$ | 13,999 |

Another element of that reconciliation states that, "The net effect of various miscellaneous transactions involving capital assets is to increase net assets." The details of this \$174,880 difference are as follows:

| Capital contributions                                     | \$ | 190,037 |
|---|----|---------|
| Disposals of capital assets                               | (  | 15,157) |
| Net adjustment to increase net changes in fund balances - |    |         |
| total governmental funds to arrive at changes in net      |    |         |
| assets of governmental activities                         | \$ | 174,880 |

#### III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

#### A. Budgets

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual appropriated budgets are adopted for the General Fund, Special Revenue Funds, and the Debt Service Fund. All annual appropriations lapse at the end of each fiscal year. Budgets are adopted for the proprietary funds annually only as a management tool. There are no legally mandated budgetary constraints for the proprietary funds.

In May of each year, budget preparation packages are distributed to all City agencies. The agencies of the City submit requests for appropriation to the City Administrator before June 15 so that a budget may be prepared. The budget is prepared by department and includes information on the past year, current year estimates and requested appropriations for the next fiscal year. During August, the proposed budget is presented to the City Council for review. The City Council holds one public hearing before August 31 and may add to, subtract from, or change appropriations. Any changes in the budget must be within the revenue and reserves estimated as available by the City Administrator, or the revenue estimates must be changed by an affirmative vote of a majority of the City Council.

#### III. STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY (Continued)

#### **A. Budgets** (Continued)

The appropriated budget is prepared by fund, function and department. The City's management may make transfers of appropriations within a department. Transfers of appropriations between departments require the approval of the City Council. The legal level of budgetary control is the department level. The City Council made several supplementary budget appropriations during the year.

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is utilized in the governmental funds. Encumbrances lapse at year-end and do not constitute expenditures or liabilities because the commitments must be reappropriated and honored during the subsequent year.

#### **B.** Expenditures over Appropriations

Expenditures exceeded appropriations in the General Fund in various departments. The following overruns were funded by unexpected revenues.

| General government:               |           |
|-----------------------------------|-----------|
| Emergency management              | \$<br>510 |
| Municipal court                   | 3,880     |
| Public safety:                    |           |
| Fire and ambulance administration | 56        |
| Fire suppression                  | 9,839     |
| Culture and recreation:           |           |
| Recreation administration         | 7,273     |
| Park maintenance                  | 2,213     |
| Capital outlay:                   |           |
| Police patrol                     | 1,289     |
| Community development planning    | 32        |

#### IV. DETAILED NOTES ON ALL FUNDS

#### A. Deposits and Investments

Substantially all deposits and investments are maintained in consolidated cash and investment accounts. Interest income relating to consolidated deposits and investments is allocated to the individual funds monthly based on each fund's prorate share of total consolidated cash, deposits and investments.

#### A. <u>Deposits and Investments</u> (Continued)

Legal provisions generally permit the City to invest in certificates of deposit, repurchase agreements, public funds investment pools, direct obligations of the United States of America or its subdivisions and state and local government securities. During the year ended September 30, 2011, the City did not own any types of securities other than those permitted by statute.

As of September 30, 2011, the City had the following investments:

| Investment Type                            | Fair Value           | Weighted Average<br>Maturity (Days) |  |  |
|--|----------------------|-------------------------------------|--|--|
| Tex Pool                                   | \$ 7,792,775         | 44                                  |  |  |
| TexStar                                    | 5,175,260            | 40                                  |  |  |
| Total fair value                           | \$ <u>12,968,035</u> |                                     |  |  |
| Portfolio weighted average maturity (days) |                      | 42                                  |  |  |

The City's investment pools are 2a7-like pools. A 2a7-like pool is one which is not registered with the Securities and Exchange Commission ("SEC") as an investment company, but nevertheless has a policy that it will, and does, operate in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940.

Under the TexPool Participation Agreement, administrative and investment services to TexPool are provided by Lehman Brothers, Inc. and Federated Investors, Inc. through an agreement with the State of Texas Comptroller of Public Accountants. The State Comptroller is the sole officer, director, and shareholder of the Texas Treasury Safekeeping Trust Company authorized to operate TexPool. The fund is rated AAAm by Standard & Poor's.

TexSTAR is a local government investment pool created under the Interlocal Cooperation Act. The fund is rated AAAm by Standard & Poor's and maintains a maturity of 60 days or less, with a maximum maturity of 13 months for any individual security. The fund fulfills all requirements of the Texas Public Funds Investment Act for local government investment pools. TexSTAR is administered by First Southwest Asset Management, Inc. and JP Morgan Chase.

The fair value of the City's position in these pools is the same as the value of the pool shares.

*Interest Rate Risk.* In accordance with its investment policy, the City manages its exposure to declines in fair market values by limiting the weighted average maturity of its investment portfolios to a maximum of 180 days.

#### A. <u>Deposits and Investments</u> (Continued)

Custodial Credit Risk. In the case of deposits, this is the risk that in the event of a bank failure, the City's deposits may not be returned to it. State statues require that all deposits in financial institutions be fully collateralized by U. S. Government obligations or its agencies and instrumentalities or direct obligations of Texas or its agencies and instrumentalities that have a fair value of not less than the principal amount of deposits. As of September 30, 2011, the City's entire deposit balance was collateralized with securities held by the pledging financial institution or covered by FDIC insurance.

*Credit Risk.* It is the City's policy to limit its investments to investment types with an investment quality rating not less than A or its equivalent by a nationally recognized statistical rating organization.

#### **B.** Receivables

Receivables as of year-end for the City's individual major funds and nonmajor funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

|                                    | Governmen    | ntal Funds        | Enterprise Funds        |                         |                   |              |

#### **B.** Receivables (Continued)

Governmental funds report *deferred revenue* in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of *deferred revenue* and *unearned revenue* reported in the governmental funds were as follows:

|   | Unavailable |         | <u>U</u> 1 | nearned |
|---|-------------|---------|------------|---------|
| Delinquent property taxes receivable (general fund) | \$          | 50,402  | \$         | -       |
| Delinquent property taxes receivable (debt service) |             | 7,381   |            | -       |
| Ambulance charges for services                      |             | 63,008  |            | -       |
| Municipal court fines                               |             | 217,376 |            | -       |
| Other   |             | -       |            | 7,296   |
| Total governmental funds                            | \$          | 338,167 | \$         | 7,296   |

#### C. Property Tax Calendar

Property taxes assessed on property valuations as of January 1 each year are levied on the subsequent October 1. Property taxes attach as an enforceable lien on property at the time levied. Property taxes are considered due when levied and become delinquent on the following February 1. On this date, penalties and interest may be assessed by the City.

### D. Capital Assets

Capital asset activity for the year ended September 30, 2011, was as follows:

|   | Beginning        |             |           |              |    | Ending     |

| Total depreciation expense - business-type activities | \$         | 1,714,343 |

#### E. Interfund Receivables, Payables and Transfers

The composition of interfund balances as of September 30, 2011, is as follows:

| Receivable Fund      | Payable Fund     | Amount    |
|----------------------|------------------|-----------|
| Water and wastewater | Capital projects | \$12,393  |
| Total                |                  | \$ 12,393 |

Balances resulted from the time lag between the dates that 1) interfund goods and services are provided on reimbursable expenditures occur, and 2) transactions are recorded in the accounting system, and 3) payments between funds are made.

Interfund transfers during the year ended September 30, 2011, are as follows:

| Transfers In              | Transfers Out         |    | Amount  |
|---------------------------|-----------------------|----|---------|
| Nonmajor enterprise       | General               | \$ | 316,390 |
| Nonmajor governmental     | General               |    | 54,609  |
| Water and wastewater fund | Nonmajor governmental |    | 58,256  |
| General                   | Water and wastewater  |    | 237,443 |
| Total interfund transfers |                       | \$ | 666,698 |

The General Fund paid \$316,390 and \$54,609, respectively, to nonmajor Enterprise Funds and nonmajor Governmental Funds to finance capital acquisitions. The transfer in the amount of \$237,443 was paid from the Water and Wastewater Fund to the General Fund for payments in lieu of taxes. The transfer in the amount of \$58,256 was paid from nonmajor Governmental Funds to the Water and Wastewater Fund to return amounts previously transferred for capital acquisitions.

#### F. Long-term Debt

# **Changes in Long-term Liabilities**

Long-term liability activity from the year ended September 30, 2011, was as follows:

|                                |    | Balance<br>09/30/10 | A  | Additions |    | Reductions |     | Balance<br>09/30/11 |    | Oue Within<br>One Year |

The General Fund is generally used to liquidate compensated absences for governmental activities.

#### **General Obligation Bonds**

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities of governmental activities and to refund previous issues. General obligation bonded debt of the City is as follows:

#### Governmental activities:

| \$1,325,000 Combination Tax and Revenue Certificates of  |                 |
|--|-----------------|
| Obligation - Series 2008, principal due annually in series through   |                 |
| 2033, interest due semi-annually at 4.06%.   | \$<br>695,000   |
| \$1,500,000 Combination Tax and Revenue Certificates of Obligation - Series 2009, principal due annually in series through |                 |
| 2019, interest due semi-annually at 3.85%.   | <br>1,490,000   |
|  |                 |
|  | \$<br>2,185,000 |

# F. Long-term Debt (Continued)

#### **Revenue Bonds**

The City also issues revenue bonds to finance business-type activities, where it pledges net income from service revenue to repay debt. Revenue bonds outstanding as of September 30, 2011, are as follows:

# **Business-type activities:**

| \$5,500,000 Utility System Revenue Bonds - Series 2001, principal due annually in series through 2016, interest due semi-annually at                                  |               |
|---|---------------|
| 4.59%.  | \$ 3,895,000  |
| \$1,150,000 Combination Tax and Revenue Certificates of Obligation - Series 2002, principal due annually in series through 2012, interest due semi-annually at 4.45%. | 140,000       |
| \$1,600,000 Combination Tax Revenue Certificates of Obligation, Series 2003B, principal due annually in series through 2018, interest due semi-annually at 3.5%.      | 785,000       |
| \$4,975,000 Combination Tax Revenue Refunding Bonds - Series 2003A, principal due annually in series through 2013, interest due semi-annually at 2.75%.               | 840,000       |
| \$275,000 Combination Tax and Revenue Certificates of Obligation, Series 2003, principal due annually in Series through 2021, interest due semi-annually at 4.125%.   | 146,865       |
| \$7,160,000 Combination Tax Revenue Bonds - Series 2004, principal due annually in series through 2019, interest due semi-annually at 4.45%.                          | 6,130,000     |
| \$2,000,000 Certificate of Obligation Bonds - Series 2006, principal due annually in series through 2018, interest due semi-annually at 3.77%.                        | 1,110,000     |
| \$4,300,000 Combination Tax Revenue Certificates of Obligation, Series 2006A, principal due annually in series through 2027, interest due semi-annually at 3.92%.     | 3,690,000     |
| \$4,130,000 Combination Tax Revenue Certificates of Obligation, Series 2008, principal due annually in series through 2033, interest due semi-annually at 4.06%.      | 4,025,000     |

#### **Capital Lease**

The City has entered into a lease agreement as lessee for financing the acquisition of equipment for landfill maintenance. This lease agreement qualifies as a capital lease for accounting purposes and, therefore, has been recorded at the present value of the future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

|                                |            | Landfill |
|--------------------------------|------------|----------|
| Asset:                         |            |          |
| Machinery and equipment        | \$         | 794,081  |
| Less: accumulated depreciation |            | 424,703  |
|                                |            |          |
| Total                          | \$ <u></u> | 369,378  |

#### **F.** Long-term Debt (Continued)

#### Capital Lease (Continued)

The future minimum lease obligation and the net present value of the minimum lease payments as of September 30, 2011, were as follows:

| Fiscal Year Ending                      |            |         |
|---|------------|---------|
| September 30,                           |            |         |
|   |            |         |
| 2012                                    | \$         | 105,163 |
| 2013                                    |            | 105,163 |
| Total minimum lease payments            |            | 210,326 |
| Less: amount representing interest      |            | 16,205  |
| Present value of minimum lease payments | \$ <u></u> | 194,121 |

#### **G.** Contingent Arbitrage Liabilities

The City has invested a portion of revenue bond proceeds as a reserve for the retirement of the bonds. Any excess of interest revenue earned on invested proceeds over interest paid on the bonds must be rebated to the federal government every five years.

#### V. OTHER INFORMATION

#### A. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; employee health benefits; and other claims of various nature. The City participates in the Texas Municipal League Intergovernmental Risk Pool. As an insured, the City is not obligated to reimburse the pool for losses. The City has not had any significant reductions in insurance coverage, nor have insurance settlements for the last three fiscal years exceeded insurance coverage. Any losses reported but unsettled or incurred and not reported, are believed to be insignificant to the City's financial statements.

#### **B.** Commitments and Contingencies

The City is defendant in lawsuits occurring in the normal course of business. Although the outcome of these matters is not presently determinable, in the opinion of the City's attorney, their resolution will not have a material adverse effect on the financial condition of the City.

### B. Commitments and Contingencies (Continued)

Amounts received or receivable from grantor agencies are subject to audit and adjustment by such agencies. Any disallowed claims, including amounts already collected may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

### C. Municipal Solid Waste Landfill Closure and Post Closure Costs

The City has constructed a Type IV sanitary landfill, which began operations on December 1, 1995. This facility is permitted to accept only brush and/or construction demolition wastes and rubbish free of household wastes.

State and federal laws and regulations require the City to place a final cover on the landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for a period of five years after closure. Although closure and post closure care costs will be paid only near or after the date that the landfill stops accepting waste, the City will report a portion of these closure and post closure costs as an operating expense in each period based on landfill capacity used to date. Estimated closure and 5-year post closure costs are approximately \$388,240. The landfill site has an estimated net capacity of 584,974 cubic yards and is expected to be closed within the next 10 years; approximately 34% of the landfill was used at year-end. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The City has received written authorization from the state that no annual contributions are required, thus the intent of the City is to fund the required expenses as incurred.

### D. Retirement Plan

### **Plan Description**

The City provides pension benefits for all of its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the statewide Texas Municipal Retirement System (TMRS), an agent multiple-employer public employee retirement system. The plan provisions that have been adopted by the City are within the options available in the governing state statutes of TMRS.

### **D. Retirement Plan** (Continued)

### **Plan Description** (Continued)

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the System. This report may be obtained from TMRS' website at www.TMRS.com.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

|                                     | Plan Year 2009  | Plan Year 2010  | Plan Year 2011  |
|-------------------------------------|-----------------|-----------------|-----------------|
|                                     |                 |                 |                 |
| Employee deposit rate               | 6.0%            | 6.0%            | 6.0%            |
| Matching ratio (city to employee)   | 2 to 1          | 2 to 1          | 2 to 1          |
| Years required for vesting          | 5               | 5               | 5               |
| Service retirement eligibility      |                 |                 |                 |
| (expressed as age/years of service) | 60/5, 0/20      | 60/5, 0/20      | 60/5, 0/20      |
| Updated service credit              | 100% repeating, | 100% repeating, | 100% repeating, |
|                                     | transfers       | transfers       | transfers       |
| Annuity increase (to retirees)      | 70% of CPI      | 70% of CPI      | 70% of CPI      |
|                                     | repeating       | repeating       | repeating       |

#### **Contributions**

Under the state law governing TMRS, the contribution rate for each City is determined annually by the actuary, using the Projected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as Updated Service Credits and Annuity Increases.

### **D.** Retirement Plan (Continued)

### **Contributions** (Continued)

The City contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect. The annual pension cost and net pension obligation/(asset) are as follows:

| Accounting |    | Annual     |    | Actual      | Percentage  | Net        |
|------------|----|------------|----|-------------|-------------|------------|
| Year       |    | Pension    | C  | ontribution | of APC      | Pension    |
| Ending     | C  | Cost (APC) |    | Made        | Contributed | Obligation |
|            |    |            |    |             |             |            |
| 09/30/09   | \$ | 934,953    | \$ | 934,953     | 100%        | -          |
| 09/30/10   |    | 1,068,923  |    | 1,068,923   | 100%        | -          |
| 09/30/11   |    | 1,102,965  |    | 1,102,965   | 100%        | -          |

The required contribution rates for fiscal year 2011 were determined as part of the December 31, 2008 and 2009 actuarial valuations. Additional information as of the latest actuarial valuation, December 31, 2010, also follows:

| Actuarial Valuation Date  | 12/31/08                       | 12/31/09                       | 12/31/10 - prior to restructuring | 12/31/10 - restructured        |

### **D.** Retirement Plan (Continued)

### **Contributions** (Continued)

In June, 2011, SSB 350 was enacted by the Texas Legislature, resulting in a restructure of the TMRS funds. This legislation provided for the actuarial valuation to be completed as if restructuring had occurred on December 31, 2010. In addition, the actuarial assumptions were updated for the new fund structure, based on an actuarial experience study that was adopted by the TMRS Board at their May, 2011 meeting (the review compared actual to expected experience for the four-year period of January 1, 2006 through December 31, 2009). For a complete description of the combined impact of the legislation and new actuarial assumptions, including the effects of TMRS city rates and funding ratios, please see the December 31, 2010 TMRS Comprehensive Annual Financial Report (CAFR).

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. The following schedule of funding progress presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of benefits.

<sup>(1)</sup> Actuarial valuation performed under the original fund structure

### E. Other Postemployment Benefits

### **Supplemental Death Benefits Fund (SDBF)**

The City also participates in the cost sharing multiple-employer defined benefit group term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

<sup>(2)</sup> Actuarial valuation performed under the new fund structure

### E. Other Postemployment Benefits (Continued)

### **Supplemental Death Benefits Fund (SDBF) (Continued)**

The death benefit for active employees provides a lump sum payment approximately equal to the employee's annual salary (calculated based on the employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.

### **Contributions**

The City contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employees' entire careers.

The City's contributions to the TMRS SDBF for the years ended 2011, 2010 and 2009 were \$2,487, \$2,455 and \$2,964, respectively, which equaled the required contributions each year.

### **Schedule of Contribution Rates**

(Retiree-only portion of the rate)

| Plan/<br>Calendar Year | Annual Required Contribution (Rate) | Actual Contribution Made (Rate) | Percentage of ARC Contributed |
|------------------------|-------------------------------------|---------------------------------|-------------------------------|
| 2009                   | 0.05%                               | 0.05%                           | 100%                          |
| 2010                   | 0.04%                               | 0.04%                           | 100%                          |
| 2011                   | 0.04%                               | 0.04%                           | 100%                          |

### F. Change in Accounting Principles

For fiscal year 2011, the City has implemented Governmental Accounting Standards Board (GASB) Statement No. 54, "Fund Balance Reporting and Governmental Fund Type Definitions." GASB Statement No. 54 enhances the usefulness of fund balance information by providing clearer fund balance classifications that can be more consistently applied and by clarifying the existing governmental fund type definitions. This statement establishes fund balance classifications that comprise a hierarchy based primarily on the extent to which a government is bound to observe constraints imposed upon the use of the resources reported in governmental funds.

### **G.** Subsequent Events

On October 11, 2011, the City issued Combination Tax and Revenue Certificates of Obligation, Series 2011, in the amount of \$4,000,000 maturing February 15, 2031 with an average interest rate of 3.2%. The bonds were issued to construct a fire station and improve roads.

# COMBINING FUND STATEMENTS AND SCHEDULES

### NONMAJOR GOVERNMENTAL FUNDS

*Special Revenue Funds* are used to account for specific revenue that is legally restricted to expenditures for particular purposes.

<u>Hotel/Motel Occupancy Tax</u> – This fund is used to account for hotel/motel occupancy tax revenue to be used for enhancing and promoting tourism and convention activity for the benefit of the hotel industry.

<u>Child Safety</u> – This fund is used to account for court costs used to operate a City school crossing guard program, or programs designated to enhance child safety, health, or nutrition; including child abuse prevention and intervention and drug and alcohol abuse prevention.

<u>Public Safety</u> – This fund is used to account for court costs used to promote various public safety programs.

<u>Court Technology</u> – This fund is used to account for court costs used to maintain technological enhancements for the municipal court.

The *Capital Projects Fund* is used to account for financial resources to be used for the acquisition or construction of general major capital facilities. Financing is provided primarily by the sale of general obligation bonds and developer contributions.

The *Debt Service Fund* is used to account for the accumulation of resources and payment of general obligation bond principal and interest from governmental resources.

### NONMAJOR ENTERPRISE FUNDS

Enterprise Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises – where the intent is that the costs of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the City has decided that periodic determination of net income is appropriate for accountability purposes.

<u>Sanitary Landfill</u> – This fund is used to account for solid waste collection and disposal services provided to the residents of the City.

<u>Airport</u> – This fund is used to account for municipal airport services and to support air transportation and charter services.

# STATISTICAL SECTION

This part of the City of Stephenville, Texas' comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health.

| Contents  | Page |
|---|------|
| Financial Trends  These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.   | 58   |
| Revenue Capacity  These schedules contain information to help the reader assess the City's most significant local revenue sources. Although sales taxes are the City's most significant local revenue source, information about revenue base is unavailable and information about principal revenue payers is confidential under Texas statutes. Trend information about sales tax revenues is provided in Table 2. Additionally, information about the City's second most significant local revenue source, the property tax, is provided. | 66   |
| Debt Capacity  These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.  | 70   |
| Demographic and Economic Information  These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.  | 75   |
| Operating Information  These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.   | 77   |

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year.

Source: Erath County Appraisal District.

Note: Property in Erath County is reassessed once every three years on average. The County assesses property at approximately 95 percent of actual value for commercial, industrial and residential property. Estimated actual taxable value is calculated by dividing taxable assessed value by those percentages. Tax rates are per \$100 of assessed value.

#### Sources:

Assessed value data used to estimate applicable percentages provided by the Erath County Appraisal District and Assessment Debt outstanding data provided by each governmental unit.

#### Notes:

Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of the City of Stephenville. This process recognizes that, when considering the City's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident--and therefore responsible for repaying the debt--of each overlapping government.

#### LEGAL DEBT MARGIN AND TAX RATE LIMITATIONS INFORMATION

As a home rule city, the City of Stephenville is not limited by law in the amount of debt it may issue.

Under Article XI, Section 5 of the Texas Constitution, no tax for any purpose shall ever be lawful for any one year, which shall exceed two and one-half percent of the taxable property of the City.

All taxable property within the City is subject to assessment, levy and collection by the City of a continuing, direct annual ad valorem tax sufficient to provide for the payment of principal and interest on the bonds within the limits prescribed by law. Under rules promulgated by the Office of the Attorney General of Texas, such office will not approve tax bonds of the City unless the City can demonstrate its ability to pay debt service requirements on all outstanding City tax bonds, including the issue to be approved.

# REPORT REQUIRED BY GOVERNMENT AUDITING STANDARDS

# REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

The Honorable Mayor and Members of the City Council City of Stephenville, Texas

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Stephenville, Texas, (the "City") as of and for the year ended September 30, 2011, which collectively comprise the City's basic financial statements and have issued our report thereon dated January 20, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

# **Internal Control Over Financial Reporting**

In planning and performing our audit, we considered the City's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

# **Compliance and Other Matters**

Pattillo, Brown & Hill, L.L.P.

As part of obtaining reasonable assurance about whether the City's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

This report is intended solely for the information and use of management, the City Council, federal and state awarding agencies and pass-through entities and is not included to be and should not be used by anyone other than these specified parties.
